5660 INDANTHRONE BLUE 60

DESCRIPTION

5660 is a transparent indanthrone blue with high chroma and color strength and outstanding fastness properties.

APPLICATIONS

Primarily recommended for use in various coatings applications. Extensively used for high-grade industrial paints such as automotive OEM and refinish. Implement enamels, and agricultural equipment. Other uses can be found in selected plastics and printing ink applications in addition to artist colors.

Typical Physical Properties

Specific Gravity (g/cm ³)	~ 1.50
pH (10% Aqueous Slurry)	5.0 - 8.0
Moisture Content	≤ 1.0%
Oil Absorption (g. oil/100 g. pigment)	~ 50

Bleed Characteristics

Xylene	5
Ethanol	5
Mineral Spirits	5
Methyl Ethyl Ketone	4 - 5

Lightfastness (1 - 8)

Full Shade	8
Tint	7 - 8

Chemical Resistance (1 - 5)

Acid	5
Alkali	5

Heat Stability - Coatings

480°F
