3017-A PHTHALO GREEN 7

DESCRIPTION

3017-A is a medium shade phthalocyanine green pigment with excellent overall properties. FDA approved (Section 178.3297).

APPLICATIONS

3017-A is used in various coatings applications such as agricultural equipment, high-grade industrial paints, implement enamels, powder coatings, and colorant systems. This product is also recommended for use throughout the plastics and printing ink industries.

Typical Physical Properties

| | |
|--|-----------|
| Specific Gravity (g/cm ³) | ~ 2.00 |
| pH (10% Aqueous Slurry) | 5.5 - 7.5 |
| Moisture Content | ≤ 1.0% |
| Oil Absorption (g. oil/100 g. pigment) | 32 - 37 |
| Bulk Density | ~ 16.80 |

Bleed Characteristics

| | |
|---------------------|---|
| Xylene | 5 |
| Ethanol | 5 |
| Mineral Spirits | 5 |
| Methyl Ethyl Ketone | 5 |
| Water | 5 |

Lightfastness (1 - 8)

| | <u>Full</u> | <u>Tint</u> |
|--------------|-------------|-------------|
| Alkyd Paint | 8 | 8 |
| Offset Inks | 8 | 8 |
| Plastics PVC | 8 | 8 |

Chemical Resistance (1 - 5)

| | |
|--------|---|
| Acid | 5 |
| Alkali | 5 |

Heat Stability - Inks

(Metal Deco - 30 Min)
350°F

Heat Stability - Plastics

(HDPE - 5 Min)
500°F

Heat Stability - Coatings

(Baking Alkyd - 30 Min)
390°F
